Homeopathy for Addiction Disorders

This seminar is for new and experienced homeopaths. Gabrielle will share her knowledge on addictions, and how to deal with these difficult cases. Conventional treatments are largely unsuccessful. Relapse rates are high and those with addictions have one of the highest mortality rates of any group of young adults. In this inspiring seminar, we will take a deep dive into the homeopathic treatment for addictions. Gabrielle will teach you about remedies and share cases with dramatic responses to homeopathy in both in-patient and out-patient settings.

We will cover the following topics:

- Drug addictions
- Drug-induced schizophrenia and bipolar disorder
- Sex and pornography addictions
- Videogame, computer and phone addictions
- Alcoholism
- Addiction to prescription medications, narcotic and opioids
- Gambling addictions
- Eating disorders

Gabrielle is a world-renowned homeopath and teacher. She specializes in women's health, infants and children. Gabrielle has conducted double-blind clinical research on concentration difficulties, nervousness and anxiety. Gabrielle formerly worked at an in-patient treatment center for Trauma, Eating Disorders, Pain and Addictions.

Gabrielle is the founder of the "World Homeopathy Awareness Organization" (WHAO) and the found of "World Homeopathy Awareness Week". She was awarded an honorary doctorate for her contribution towards the profession. She is published in Arabic, Bulgarian, English, French, German, Japanese, Norwegian, Portuguese and Swedish.
