**LOS ANGELES HOMEOPATHIC CLINIC**  
**ACKNOWLEDGMENT, CONSENT AND RELEASE WAIVER**

Welcome to Los Angeles Homeopathic Clinic

The Los Angeles School of Homeopathy Clinic is a teaching Clinic. Our purpose is to provide excellent Homeopathic care to you, and a learning environment for student interns to gain knowledge and experience in the practice of Homeopathy. A Clinic supervisor will supervise our interns and oversee every Homeopathic consultation in the Clinic.

Due to the limited hours available to interns and supervisors, you may not be able to see the same intern or supervisor for every appointment, although we try to accommodate consistency throughout your Homeopathic care. The school has no availability for treatment in-between scheduled appointments. We can only address your issues while at your schedule appointment time.

To further the mission of Los Angeles School of Homeopathy, client Clinical records may be reviewed as needed by the faculty at the school. Results may be published in Homeopathic Journals to further the course of Homeopathic *care*. All personal information will remain confidential. You must submit a written request that your case not be included in any research publication.

**CALIFORNIA SENATE BILL SB-577 ~ WHAT IT MEANS FOR CLIENTS**

California Senate Bill SB-577, which was signed by the governor in September 2002, has profound implications for the practice of alternative forms of health care in California. SB-577 enables alternative and complementary health care practitioners to provide and advertise their services legally. However, they must also comply with certain requirements specified within the bill.

**What does Senate Bill SB-577 mean for you, the client?**

**SB-577 gives you access to alternative and complementary health care practitioners.** You must be given information about the nature of treatment and the practitioner’s qualifications. Feel free to ask a practitioner any question you might have about your treatment. Check to see if your practitioner has been certified by a professional membership society. In addition, tell your doctor about any alternative treatment you are pursuing. You can also request that your licensed and unlicensed health care providers communicate with each other and work collaboratively to meet your health care needs.

**SB-577 helps to protect you.** SB-577 requires unlicensed alternative health care practitioners to follow certain guidelines and restrictions.

Here are the things that unlicensed alternative practitioners are NOT allowed to do:

- Perform any form of surgery or any procedure that punctures your skin or harmfully invades your body.
- Use X-ray radiation.
- Prescribe prescription drugs, or recommending that you discontinue drugs that were prescribed by a licensed physician.
- Set fractures.
- Treat wounds with electrotherapy.
- Put you at risk of great bodily harm, serious physical or mental illness, or death.
- Imply in any way that they are licensed physicians.

In addition, an unlicensed alternative practitioner MUST DO the following things:

- Provide you with a statement, written in plain language that includes the following information:
    - (1) That they are not a licensed physician and that their services are not licensed by the state;
    - (2) A brief and clear description of the kind of services they provide and the reasoning behind it;
    - (3) A description of their education, training, and experience.
- 

By signing below, I agree to the terms above.
